The Frederick County Sheriff's Office places an emphasis on crime prevention, criminal apprehension, and prosecution. With the population of the county growing we have noticed a need to provide traffic speed enforcement as part of an ongoing crime prevention program. In an effort to locate specific problem areas we request that you fill out this form to assist us. We ask that you understand that our goal in this endeavor is to slow a majority of traffic in a specific area down, not to write "tickets", but tickets may be issued. If you have a specific vehicle that is speeding, be honest with us and we will take other measures necessary to slow that person's speed. This information is used for our statistical purposes only.
